Key SKILLS

- **Technical Skills:** Java, Core Java, Spring Boot, Hibernate, MySQL, HTML, CSS, JavaScript, Bootstrap v5.0, React, Microsoft word, Microsoft Excel, PowerPoint, Git & Github
- **Soft Skills**: Adaptabilit, Hard Working

INTERNSHIP

Java Developer Intern | THYO SOFTECH PVT. LTD.   Sep 2024 – Jan 2025

- Gained hands-on experience in developing and optimizing Web applications, collaborating with cross-functional teams to deliver high-quality solutions.
- Contributed to the full software development lifecycle, including requirements analysis, development, testing, and deployment of features and fixes.
- CUtilized technologies like Java Servlet and JSP for backend development, HTML, CSS, JavaScript, and Bootstrap for frontend, and MySQL for database management.
- Worked closely with the team to troubleshoot and resolve issues, improving overall application reliability and user experience.

PROJECTS

Food Ordering E-Commerce Application

- Developed a responsive e-commerce web application for food ordering using HTML, CSS, JavaScript, and Bootstrap for front-end design, delivering a user-friendly experience for customers and an efficient admin panel for product management.
- Implemented the backend with JSP and Java Servlet, integrating a MySQL database for data persistence and transaction management, ensuring secure and smooth order processing.
- Designed and built an admin dashboard to manage product inventory, monitor orders, and oversee user accounts, enabling efficient content and user management by administrators.
- Enhanced user experience with optimizing for both mobile and desktop platforms.

Contact Manager Web App

- Engineered a Java-based Contact Manager Web App using Spring Boot, Thyme-leaf for front- end, MySQL, and JDBC technologies.
- Accomplishing secure user authentication and authorization features, allowing users to log in and manage their contacts securely.
- Improved user experience by designing a responsive and intuitive front-end interface with Thyme- leaf.
- Employed Spring Boot framework for rapid development and simplified deployment of the web application.

ClickMaster – Photography Company Web Application

- Developed a full-stack web application for a photography company to showcase portfolios, services, and client work in a visually appealing format.
- Implemented backend logic using Java Spring Boot and Hibernate, with MySQL handling persistent data storage and operations. Designed a responsive and interactive frontend using React, styled with HTML, CSS, and JavaScript, ensuring seamless user experience across devices.
- Built an Admin Panel that allows administrators to dynamically manage content, including uploading images, editing service details, and handling client inquiries.
- Focused on scalable architecture and clean code practices to support future enhancements and smooth deployment.

EDUCATION

- **Kalinga Institute of Industrial Technology**   Bhubaneswar, Odisha
  Master of Computer Application | CGPA : 8.86   2022 - 2024
- **Utkal University**   Bhubaneswar, Odisha
  Bachelor of Science (Chemistry) | CGPA : 8.15   2019 - 2022
- **Royal College of Science & Technology**   Bhubaneswar, Odisha
  +2 Science | Percentage : 81   2017 - 2019

INTEREST

- **Sports** (It keeps me fit and energetic)
- **Planting** (It keeps our environment safe)
